The November, 2021 meeting will be held on the second Wednesday, the 10th, at the Carmichael Elks Lodge, 5631 Cypress Avenue, Carmichael, CA. 11am for social hour and lunch is served at noon.

IF YOU ARE NOT PLANNING TO GET THE COVID VACCINE, YOU MUST BRING VERIFICATION OF A RECENT NEGATIVE COVID TEST.

Remember, the BIG SIR will be emailing you a notice of regarding your luncheon attendance. Please respond in a timely manner, whether you plan to attend or not.

BIG SIR REPORT:

Our new procedure for informing the BEC of your intention to attend the October meeting was a success! In fact, our estimate for lunch attendees given to the Elks Club on the Friday before the luncheon was 102. The actual attendance was 103. We will continue the same lunch reporting process where you will receive an email from me the last Wednesday of October, asking you to respond "Yes" or "No" on the form, regarding your attendance at the November luncheon. Those members who do not respond by November 3 will receive a phone call so that we can provide an accurate count to the Elks for our November 10 lunch.

On the topic of attendance, our Attendance Chairman, Dave Nemzek, has decided to resign from his position. Dave has been the attendance chairman for 14 years and has done a wonderful job maintaining our badges and keeping them in order. Plus, he collects the badges after our luncheons, enabling him to prepare an Attendance Report which he presents to the BEC each month. I sincerely appreciate the dedicated effort Dave has provided our branch over the past 14 years.

Mark your calendars for the annual Christmas Luncheon on December 16 at Northridge Country Club. The ticket price will be \$45.00 per person, which includes a very special holiday gift for your spouse/significant other. I think this price is quite reasonable considering how much food prices have increased recently. Also, the venue is a very nice facility and it is local! Gates will open at 11:00am with lunch being served at 11:30am. I hope to see you there.

LITTLE SIR REPORT:

Our October speaker, Ms. Jan Geiger, the "Crocker Talker", was very informative, giving a history of the early days of the Crocker Art Museum and how it came to be founded. She also brought us up to date with the current exhibits at the museum, as well as some that will be there early next year. Before Jan spoke to our group, I was unaware that they had free museum admission days twice a year, nor did I know about the discount days. Both great things for people on fixed incomes. I was also not aware that they are almost back to offering a full schedule again. We thank Jan for a very informative talk regarding our own Crocker Museum.

Next month's speaker will be Tom Jones of the McClellan Aerospace Museum. He is going to speak about what is happening at the museum. I went there recently and was very impressed with what the museum is today. It had been over 10 years since my last visit and so much has been added. I spent about half an hour flying a jet on their flight simulator and then a few more hours looking at other exhibits, until they threw me out. I plan to return soon with my grandchildren. I am sure you will enjoy Tom's presentation.

Please join your fellow SIRs on Wednesday, November 10th for a highly informative talk by Executive Director of The Aerospace Museum, Tom Jones . Social from 11:30 to noon, lunch and meeting to follow.

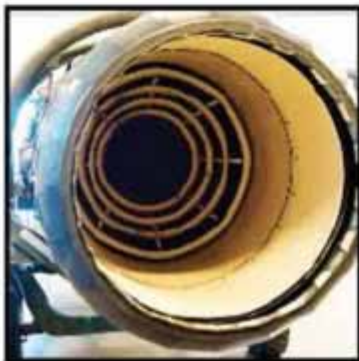

Tom Jones serves Northern California as the Executive Director of the Aerospace Museum of California. Tom's role as Executive Director is focused on creating the finest Science, Technology, Engineering, Art and Math education and student facility on the West Coast. The Aerospace Museum is truly a place where dreams can take flight and imagination soars.

OVER 35 AIRCRAFT OUTSIDE!

Did you know that McClellan Air Force Base used to be a fighter modification and repair facility? Come visit our extensive fighter collection and more! Fighters are especially interesting because they embody the utmost example of speed, power, and "glamour" of an aircraft. They are naturally the best examples of the most advanced technology of their time.
